

# SINGLE-EAR PINCH / CRIMP CLAMPS AND TOOL

**Pinch clamps** are designed to fit most popular polyethylene and polybutylene water service lines, and are perfect for sprinkler systems, irrigation systems and most other low-pressure applications.

## Ideal-Tridon® 61 Series

- Marine Grade Clamps
- All 300 stainless steel for excellent corrosion resistance
- Welded construction for superior strength
- Easy installation
- Permanent, tamper-proof 360° seal
- Compatible with most clinching tools

## Crimp Clamp Tool

**Part No. 6100158** — Use to install or remove pinch / crimp clamps.

### How to determine proper pinch/crimp clamp size:

Measure actual outside diameter (O.D.) of the hose on the fitting. Select the nominal size clamp nearest to that size, but always larger than the O.D. of the hose on the fitting.

### FIND YOUR PART NUMBER

Part No.	Nominal Dia. (in)	Min (in)	Max (in)	Min (mm)	Max (mm)	Quantity Per Bag
61198	3/4	0.669	0.779	17	20	100
61210	13/16	0.716	0.827	18	21	100
61256	1	0.898	1.008	23	25	100
61271	1-1/16	0.945	1.067	24	27	100
61316	1-1/4	1.122	1.244	29	31	100
61331	1-5/16	1.181	1.303	30	33	100
61346	1-3/8	1.240	1.362	32	34	100
61410	1-5/8	1.492	1.614	38	41	100
61425	1-11/16	1.551	1.673	40	42	100
61485	1-7/8	1.787	1.909	46	48	100
