

# GREATER FLEXIBILITY IS WITHIN YOUR REACH

## IDEAL-TRIDON® FLEXIBLE HOSE CLAMP DRIVER

Stop using that old rigid nut driver and add some flexibility to your work! The flexible shaft and no-slip grip provide 90° access and work best in hard to reach places such as compact car and boat engines, as well as plumbing repair applications.

The socket fits mini and standard hose clamp screw heads. Just flip the socket for the desired size of 1/4" or 5/16". The Flexible Hose Clamp Driver is packaged in a colorful VisiPak that measures 14-1/8" H x 2-1/8" W x 1-1/2" D.

Part No: **9999V**
